Extended Warranties for greater peace of mind

Every New, Certified and Service Exchange vacuum pump is backed by a standard one-year manufacturer's warranty which covers defects in materials and workmanship arising under conditions of normal and proper equipment use.

Now, under our Extended Warranty plan we are proud to offer up to three years of warranty coverage to ensure that your vacuum equipment remains free from defects over a longer period of time.

The Extended Warranty program gives you the opportunity to manage the expense associated with unbudgeted repairs, providing complete peace of mind for the duration of the agreement.

Benefits of Extended Warranty

Extending the warranty of your vacuum equipment ensures that you have the best in vacuum technology and a well-protected asset.

Our Extended Warranty provides the same level of coverage and fulfillment as our Standard Warranty for an even longer period of time, assuring your equipment has the highest level of protection.

An Extended Warranty can be purchased as part of the original sale and refers to the total period of warranty coverage.
