

SIMPLE SERVICE KITS

edwardsvacuum.com/service

Putting better solutions in your hands...

Service should be simple, and with a new range of Simple Service Kits, Edwards' plans to keep it that way. Each kit is structured in a way that provides all the items you need to perform essential maintenance tasks. Giving you the confidence to start a job with everything you need to complete it successfully. Saving time, and avoiding common frustrations that can turn a simple task into a virtual nightmare. Where applicable we've even included our high performance Ultragrade oil¹, specially formulated to deliver outstanding results in vacuum applications. Kit options are aligned to the routine maintenance intervals outlined in the operators manual.

Model	Every 6 Months or 3000 Hours	Every 2 Years or 15000 Hours	Every 4 Years or 30000 Hours
E1M0.7	KIT001391	KIT001392	KIT001393

 7000 Hrs kit includes clean and overhaul components fine oil filter and oil fill
 20000 Hrs kit features blade replacement, clean and overhaul components, fine oil filter and oil fill

Larger Pumps

We recognise that it is not always convenient or cost effective to send pumps back for service so kits are also available for some of the larger pumps in our range. If you already complete routine maintenance at your site the use of Simple Service Kits between major overhauls will extend operational life, maximising your equipment uptime and productivity.

Model	Every 1 Year or 7000 Hours
GV80	KIT001371
GV160	KIT001373
